Geometry

(cartesian measurements)

Geography

(geodetic measurements)

Analyze spatial
data using
SQL-esque syntax

```
SELECT *  
FROM ed2019;
```

id	type	year	ed_num	ed_name	geom
14	Rural	2008	112	Emerson	010600002022690000010000...
15	Rural	2008	130	Morris	010600002022690000010000...
17	Rural	2008	129	Morden-Winkler	010600002022690000010000...
8	Rural	2008	152	The Pas	010600002022690000010000...
9	Rural	2008	150	Swan River	010600002022690000010000...
10	Rural	2008	119	Interlake	010600002022690000010000...
